

UP & COMUNA DE CALLE PRESENT:

THE HIDDEN MAGIC OF THE EVERYDAY

A COLLECTIVE PHOTOGRAPHY EXHIBITION

A collective exhibition that brings together the talent and unique vision of a group of Mexican photographers. United by their passion for photography, these artists invite us to discover the authenticity and richness found in every corner where the essence of Mexican life reveals itself.

Through their lenses, these photographers take us on a visual journey through the richness and diversity of everyday life across different regions of Mexico. From vibrant urban scenes to rural landscapes, from folklore and customs to celebrations and rituals, each image captures the hidden magic within the ordinary.

Along this visual journey, we witness intimate and festive moments, ancestral traditions, and the natural beauty that defines Mexico. Each photograph opens a window into the stories and emotions that make up the fabric of our national identity.

This exhibition is more than a collection of photographs; it is a window into the many facets of our culture and the stories woven into every corner, every smile, and every sunset.

We invite you to let yourself be carried by the images, to explore with your eyes, and to discover in every frame the passion and talent of these photographers who, through their lenses, reveal the multifaceted essence of Mexico.
